### Mats and Jacks

- Players should use separate mats and jacks, however if this is not possible, whichever player collects the mats and jack is responsible for all contact with the equipment before, during and after the game. Players must use the disinfectant spray after each game to clean all mats and jacks (ensure these are completely dry of disinfectant before use on the green again). Cleaning products will be made available by the club
- As a suggestion jacks or mats can be set at short, medium, or long by the same player after each end rather than rolling the jack down the rink for position.

- The 2m physical distancing rule must always be observed on and off the green.
- Other bowls equipment cannot be shared between players (e.g. cloths, measures etc.)
- Players should not pick up any other player's bowls; Share equipment e.g. cloths, measures etc.; Moisten their hands with saliva before delivery.
